

Simple Wreath Building

Simple, low waste, eco-friendly wreath to decorate any space.

WHAT YOU WILL NEED

secateurs
card board
scissors
rubber bands
masking tape

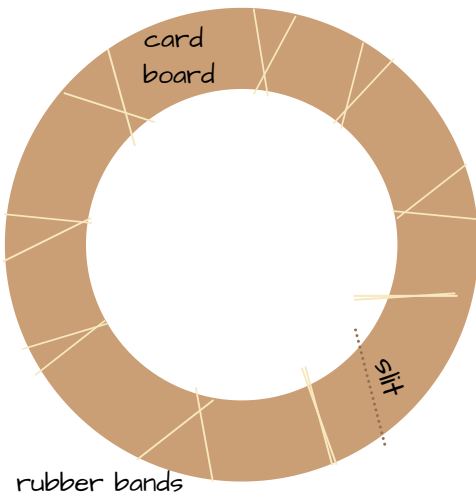

1.

Collect leaves.

Be gentle with the plants. Snip small sections of clean, new growth.

2.

Cut out a card board ring with a slit.
Use slit to put rubber bands onto ring.

3.

Use masking tape to hold slit closed.
Re-arrange bands if needed

4.

Add leaves.
Use rubber bands to hold foliage in place

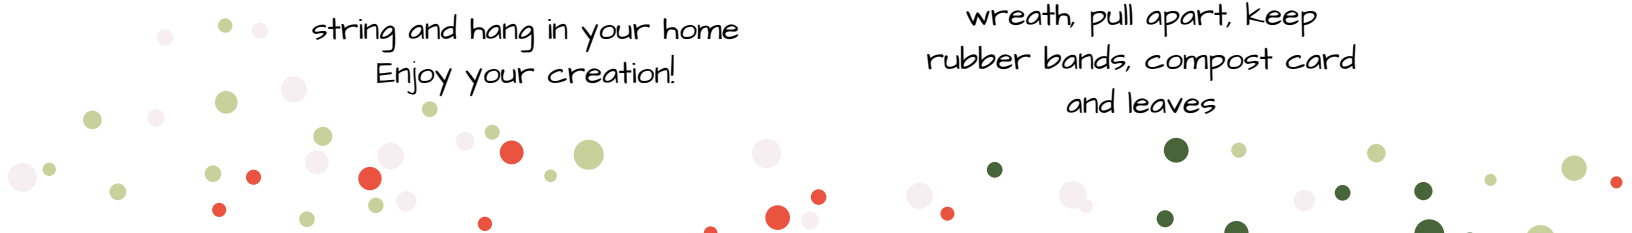

5.

Place on a shelf or attach string and hang in your home
Enjoy your creation!

6.

When finished with your wreath, pull apart, keep rubber bands, compost card and leaves

Easy Christmas Cards

Making cards with just a few items

WHAT YOU WILL NEED

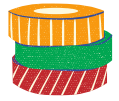

A5 card/ A4 paper
scissors
glue
pen/ marker

+

(one or more)

OPTIONS

washi tape
ribbon
scrap material
scrap paper

1.

If you are using A5 card, fold in half.

If you are using A4 paper, fold in half, and in half again.

2.

Cut material or ribbon (or rip washi) into different length strips and stick onto card

3.

Scrap paper can be cut into any kind of shape and added.

Use a marker to add words/ phrases.

Ribbon can be tied into bows.
